DOG NEEDS A HOME

Three Rivers, MI

HARLEY HAS QUALITIES - GOOD AND BAD

1. He is housebroken and very good. I know this because he woke Me just the other night at 4:00 am because he had to go out. That's most unusual. He will often go 12 hours without having to go.
2. He loves to play with other dogs but maybe should be the only dog in the household because he's extremely protective of his food dish.
3. He has a ":double-coat" and sheds a lot and really doesn't like to be brushed.
4. He's not a cuddle bug. He will sometimes sit beside me in my recliner but usually only stays 10 or 15 minutes
5. He has separation anxiety and has a fit if you leave him alone. But calms down soon after and is generally good about being alone altho he does like to chew plastic.
6. He gets highly excited when someone comes in, and seems to love everybody.

Spayed/neutered, Vaccinated, House-trained

I'm nearing 84 and it's difficult for me to care for him. And he'll probably still be a young dog when I die. He would undoubtedly get along with other dogs in the hous...
