Missing since: Sep 8, 2026 • Last known whereabouts: Oak View, CA 93022

PET FACTS

Breed Poodle	Color White	Size Medium
Gender male	Collar / Tag No	

ABOUT SAMMY

Mostly blind/deaf older (15+ years old) Poodle who has very limited leg mobility. Often spends his time spread legged on the carpet or his bed. He cannot climb or run anymore. He has dozens of lumps on his skin that look like pimples, moles, or even scabs. He has had this skin condition since we found him and there is no treatment. It is not contagious or dangerous. We adopted him with this condition and it is not painful. He weighs about 30 lbs. and was let out into the back yard on 9/8/...
