ABOUT MILO

Milo has a beautiful heart. He is a healthy boy who has received regular vet care & grooming his whole life. He is used to sleeping in bed with us. He's a great sous chef & loves sampling all our (dog-appropriate) cooking. He does well with adults & just wants to be part of a human wolfpack. He needs to be an only dog. He grew up w/ a dog brother who sadly passed recently, but that was the only dog he truly accepted. He loves our new baby, but he's a bulldozer w/ no spatial awareness when he get...

Special Needs: No medications. No special needs. Trazadone works well during 4th or July or New Years fireworks.
